Place of Interest

Prai Bird Park, Penang

The first & largest bird park of its kind in Malaysia. Established since 1988, the 5-acre park on the mainland portion of Penang State, has a collection of more than 300 species of birds from all over the world, of which more than 150 species are of Malaysian Species.

More than 3,000 birds in this park are carefully and scientifically housed in more than 150 cages for the breeding and conservation purpose. While the Geodesic Domes and 2 giant sized Walk-in-Aviaries, keep hundreds of tamed birds which offers priceless memory and exciting moment for visitors, after hand-feeding them. Exotic birds ranging from tiny Sunbirds to huge, gigantic 8-foot tall Ostriches frolic in an environment that imitates their natural habitat. Penang Bird Park is particularly proud of its hornbills, sunbirds, and pheasants collection.

Penang Fruit of the month—Durian

Durian, the king of the fruits. Had been known to the Western for more than 600 years.

The hard outer husk is covered with sharp, prickly **thorns** while the edible flesh within emits a distinctive odour, which is regarded as “fragrant” to most of the local Malaysian.

The flesh can be consumed at various stages of ripeness and is used to flavour a wide variety of savoury and sweet edibles in Malaysian cuisines. The seeds can also be eaten when cooked.

The usual advice for a durian consumer choosing a whole fruit in the market is to examine the quality of the [stem](#) , a solid stem is a sign of freshness.
